PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in full-stack development, AI/ML applications, and mobile systems. Skilled in modern frontend/backend stacks and passionate about solving real-world problems through software.

WORK HISTORY

Throughout my studies, I have contributed to software projects in both public and private sectors. At İŞKUR's IT Department, I gained hands-on experience in data security, user access, and workflow automation. I worked on Angular and .NET Core projects covering all development phases. I'm currently co-developing a React Native-based B2B platform with smart matching features, and contributing to our university's alumni network system. My capstone focuses on IoT-based smart home systems. I've also completed freelance projects including inventory management, RL-based energy optimization, and Unity game development.

SKILLS

Frontend: React, Next.js, Angular, Tailwind, TypeScript
Backend: .NET Core, C#, Node.js, Python
AI/ML: Python, TensorFlow, Deep Learning
Databases: PostgreSQL, MySQL, Azure SQL, Firebase
Tools: Git, GitHub, VS Code, Xcode, IntelliJ, Unity
Problem Solving: Analyzing complex issues and creating effective solutions
Communication: Effectively communicating with technical and non-technical groups
Teamwork: Collaborating with diverse disciplines and working in team projects
The ability to quickly learn and apply new concepts in a fast-changing tech environment.

EDUCATION

Gazi University BSc in Computer Engineering - 08/2020
19 Mayıs Anatolian High School - 2015-2019

LANGUAGES

English - Intermediate
Turkish - Native

HOBBIES AND INTERESTS

I have a passion for music and play the guitar. Traveling, discovering new places, and learning about different cultures are important aspects of my life. I also enjoy reading books and hiking in nature. My interest in technology keeps me motivated to continuously develop my skills in this field.
